Evolent Health LLC, a subsidiary of Evolent Health, Inc. through which we conduct our operations, has owned all of our operating assets and substantially all of our business since inception. This prospectus supplement and the accompanying prospectus dated August 7, 2017 are part of the Registration Statement (Registration No. 333-219755) that we filed with the SEC on August 7, 2017, using an automatic “shelf” registration process. SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements made in this prospectus supplement and the accompanying prospectus and the documents incorporated herein and therein by reference and in other written or oral statements made by us or on our behalf are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 (“PSLRA”). Moreover, we operate in a rapidly changing and competitive environment. New risk factors emerge from time to time, and it is not possible for management to predict all such risk factors.

Further, it is not possible to assess the effect of all risk factors on our businesses or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results. In addition, we disclaim any obligation to update any forward-looking statements to reflect events or circumstances that occur after the date of this prospectus supplement.

SUMMARY

This summary is not complete and does not contain all of the information that you should consider before investing in our Class A common stock. You should read carefully this entire prospectus supplement and the accompanying prospectus, including the information incorporated by reference from our 2018 10-K and the other incorporated documents, including in particular the section entitled “Risk Factors” of this prospectus supplement and in such incorporated documents, as well as our consolidated financial statements, incorporated by reference in this prospectus supplement and the accompanying prospectus, before making any investment decision.

Company Overview

We are a market leader in the new era of health care delivery and payment, in which leading health systems and physician organizations, which we refer to as providers, are taking on increasing clinical and financial responsibility for the populations they serve. We provide integrated, technology-enabled services to our national network of leading health systems, physician organizations and national and regional payers across Medicare, Medicaid and commercial markets. By partnering with providers to accelerate their path to value-based care, we enable our provider partners to expand their market opportunity, diversify their revenue streams, grow market share and improve the quality of the care they provide.

We believe we are pioneers in enabling health systems to succeed in value-based payment models. We were founded in 2011 by members of our management team, the University of Pittsburgh Medical Center (“UPMC”), an integrated delivery system based in Pittsburgh, Pennsylvania, and The Advisory Board Company (“The Advisory Board”), to enable providers to pursue a value-based business model and evolve their competitive position and market opportunity. We consider value-based care to be the necessary convergence of health care payment and delivery. We believe the pace of this convergence is accelerating, driven by price pressure in traditional fee-for-service (“FFS”) health care, a market environment that is incentivizing value-based care models and innovation in data and technology. We believe providers are positioned to lead this transition to value-based care because of their control over large portions of health care delivery costs, their primary position with consumers and their strong local brand.

We believe that the transition to value-based care is impacting the business model of both providers and payers and is impacting the reimbursement and delivery of care in all segments of the market, including Medicare, Medicaid and commercial markets. For providers, the transformation of the business model will require a set of core capabilities, including the ability to aggregate and understand disparate clinical and financial data, standardize and integrate technology into care processes, manage population health and build a financial and administrative infrastructure that capitalizes on the clinical and financial value it delivers. To that end, we provide an end-to-end, built-for-purpose, technology-enabled platform for providers to transition their organization and business model to succeed in value-based payment models. To succeed under value-based care reimbursement, payers are under increasing pressure to manage high cost complex patient populations. We offer technology-enabled services to address these populations.

We manage our operations and allocate resources across two reportable segments, our Services segment and our True Health segment.

Additional Information

We were incorporated as a Delaware corporation on December 12, 2014. Our principal executive offices are located at 800 N. Glebe Road, Suite 500, Arlington, Virginia 22203 and our telephone number is (571) 389-6000. We also maintain a website at www.evolenthealth.com. Our website and the information contained therein or connected thereto are not incorporated into this prospectus supplement, the accompanying prospectus or the registration statement of which they form a part.

RISK FACTORS

An investment in our Class A common stock involves a high degree of risk. You should carefully consider all of the information contained in, or incorporated by reference into, this prospectus supplement and the accompanying prospectus, including the risk factors incorporated by reference in this prospectus supplement from our 2018 10-K under the heading “Risk Factors” and the audited annual financial statements and notes thereto, as updated by our subsequent filings under the Exchange Act, before purchasing shares of our Class A common stock. See “Where you can find more information” for information about how to obtain a copy of these documents. If any of those risks are realized, our business, financial condition, operating results and prospects could be materially and adversely affected. In that event, the price of our Class A common stock could decline, and you could lose part or all of your investment.

USE OF PROCEEDS

All of the shares of our Class A common stock offered by this prospectus supplement will be sold by the selling stockholder. We will not receive any cash proceeds from any resale of our Class A common stock by the selling stockholder.

SELLING STOCKHOLDER

This prospectus supplement relates to the resale of 1,577,841 shares of our Class A common stock (the “Registered Shares”) by Momentum Health Group, LLC (“MHG”) as the selling stockholder. On May 24, 2019, we completed the acquisition of an approximately 45% ownership interest in MHG, the sole owner of Momentum Health Acquisition, Inc. (“MHA”), which is the sole owner of GlobalHealth Holdings, LLC (“GHH”), which is the sole owner of GlobalHealth, Inc., a health maintenance organization based in the State of Oklahoma that offers, among other things, Medicare Advantage products in the State of Oklahoma. Pursuant to the Stock Purchase Agreement dated as of March 22, 2019 (as amended, the “Purchase Agreement”) by and between us, MHG, MHA and Momentum Health Holdings, LLC relating to the acquisition, we contributed approximately \$14,000,000 in cash and 1,577,841 shares of our Class A common to MHG, together with certain of our other assets. Pursuant to a Securityholders Agreement (the “Securityholders Agreement”) among MHG and certain equityholders of MHG party thereto, we hold customary governance rights in MHG for a minority investor, including the right to appoint two of seven directors to MHG’s board of directors. In connection with the consummation of the transactions contemplated by the Purchase Agreement, we also entered into a Registration Rights Agreement with MHG, dated as of May 24, 2019 (the “Registration Rights Agreement”), which grants certain registration rights to MHG as a holder of shares of our Class A common stock. We are registering the Registered Shares, which are covered by this prospectus supplement and the accompanying prospectus, for resale by MHG as the selling stockholder in order to fulfill our obligation under the Registration Rights Agreement.

In connection with the transactions contemplated by the Purchase Agreement, and in addition to the Securityholders Agreement and the Registration Rights Agreement, (i) the selling stockholder will enter into an Amended and Restated Limited Liability Company with MHG and (ii) GHH will enter into (A) an employee leasing agreement and a subcontractor management services agreement with Evolent Health LLC, (B) a term sheet with NCIS Management Systems, Inc. for certain delegated services, and (C) following the assignment by Evolent Health LLC to GHH of the relevant trademark registration, a trademark license agreement with True Health New Mexico, Inc. for use of the “TRUEHEALTH” trademark.

The “selling stockholder” includes MHG and its pledgees, assignees, transferees, donees and successors-in-interest. We may amend or supplement this prospectus supplement from time to time in the future to update or change the identity of the selling stockholder and the Registered Shares which may be offered and sold to identify such pledgees, assignees, transferees, donees and other successors-in-interest. The registration of the Registered Shares does not necessarily mean that the selling stockholder will sell all or any of the Registered Shares. In addition, the selling stockholder may have sold, transferred or otherwise disposed of, or may sell, transfer or otherwise dispose of, at any time and from time to time, shares of our Class A common stock in transactions exempt from the registration requirements of the Securities Act after the date hereof.

As of the date of this prospectus supplement, the selling stockholder beneficially owned 1,577,841 shares of our Class A common stock, which constitutes 1.9% of our outstanding shares of Class A common stock (based on the 82,017,754 total shares of our Class A common stock outstanding as of May 22, 2019). MHG has sole voting and investment power with respect to the shares of Class A common stock that it beneficially owns. Assuming that the selling stockholder will sell all of the Registered Shares covered by this prospectus supplement, the selling stockholder will beneficially own zero shares of our Class A common stock after resale of the Registered Shares. The selling stockholder is not a broker-dealer or affiliated with any broker-dealer. The information in this paragraph was obtained from the selling stockholder and has not been independently verified by us.

PLAN OF DISTRIBUTION

The selling stockholder, including its pledgees, donees, transferees, distributees, beneficiaries or other successors-in-interest, may from time to time offer some or all of the Registered Shares.

The selling stockholder will not pay any of the costs, expenses and fees in connection with the registration and sale of the Registered Shares covered by this prospectus supplement, but it will pay any and all underwriting discounts, selling commissions and stock transfer taxes, if any, attributable to sales of the Registered Shares. We will not receive any proceeds from the sale of our shares of Class A common stock covered hereby.

The selling stockholder may sell the Registered Shares covered by this prospectus supplement from time to time, and may also decide not to sell all or any of the Registered Shares that it is allowed to sell under this prospectus supplement. The selling stockholder will act independently of us in making decisions regarding the timing, manner and size of each sale. These dispositions may be at fixed prices, at market prices prevailing at the time of sale, at prices related to such prevailing market prices, at varying prices determined at the time of sale, or at privately negotiated prices. Sales may be made by the selling stockholder in one or more types of transactions, which may include:

- purchases by underwriters, dealers and agents who may receive compensation in the form of underwriting discounts, concessions or commissions from the selling stockholder and/or the purchasers of the Registered Shares for whom they may act as agent;
- one or more block transactions, including transactions in which the broker or dealer so engaged will attempt to sell the Registered Shares as agent but may position and resell a portion of the block as principal to facilitate the transaction, or in crosses, in which the same broker acts as an agent on both sides of the trade;
- ordinary brokerage transactions or transactions in which a broker solicits purchases;
- purchases by a broker-dealer or market maker, as principal, and resale by the broker-dealer for its account;
- the pledge of Registered Shares for any loan or obligation, including pledges to brokers or dealers who may from time to time effect distributions of Registered Shares;
- short sales or transactions to cover short sales relating to the Registered Shares;
- one or more exchanges or over-the-counter market transactions;
- through distribution by the selling stockholder or its successor-in-interest to its members, general or limited partners or stockholders (or their respective members, general or limited partners or stockholders);
- privately negotiated transactions;
- the writing of options, whether the options are listed on an options exchange or otherwise;
- distributions to creditors and equity holders of the selling stockholder; and
- any combination of the foregoing, or any other available means allowable under applicable law.

The selling stockholder may also resell all or a portion of its Registered Shares in open market transactions in reliance upon Rule 144 under the Securities Act, provided it meets the criteria and conforms to the requirements of Rule 144 and all applicable laws and regulations.

The selling stockholder may enter into sale, forward sale and derivative transactions with third parties, or may sell securities not covered by this prospectus supplement to third parties in privately negotiated transactions. In connection with those sale, forward sale or derivative transactions, the third parties may sell securities covered by this prospectus supplement, including in short sale transactions and by issuing securities that are not covered by this prospectus supplement but are exchangeable for or represent beneficial interests in the common stock. The third parties also may use shares received under those sale, forward sale or derivative arrangements or shares pledged by the selling stockholder or borrowed from the selling stockholder or others to settle such third-party sales or to close out any related open borrowings of common stock. The third parties may deliver this prospectus supplement in connection with any such transactions. Any third party in such sale transactions will be an underwriter and will be identified in a supplement or a post-effective amendment to the registration statement of which this prospectus supplement is a part as may be required.

In addition, the selling stockholder may engage in hedging transactions with broker-dealers in connection with distributions of Registered Shares or otherwise. In those transactions, broker-dealers may engage in short sales of securities in the course of hedging the positions they assume with the selling stockholder. The selling stockholder may also sell securities short and redeliver securities to close out such short positions. The selling stockholder may also enter into option or other transactions with broker-dealers which require the delivery of securities to the broker-dealer. The broker-dealer may then resell or otherwise transfer such securities pursuant to this prospectus supplement. The selling stockholder also may loan or pledge shares, and the borrower or pledgee may sell or otherwise transfer the Registered Shares so loaned or pledged pursuant to this prospectus supplement. Such borrower or pledgee also may transfer those Registered Shares to investors in our securities or the selling stockholder's securities or in connection with the offering of other securities not covered by this prospectus supplement.

To the extent necessary, the specific terms of the offering of Registered Shares, including the specific Registered Shares to be sold, the respective purchase prices and public offering prices, the names of any underwriter, broker-dealer or agent, if any, and any applicable compensation in the form of discounts, concessions or commissions paid to underwriters or agents or paid or allowed to dealers will be set forth in a supplement to this prospectus supplement or a post-effective amendment to this registration statement of which this prospectus supplement forms a part. The selling stockholder may, or may authorize underwriters, dealers and agents to, solicit offers from specified institutions to purchase Registered Shares from the selling stockholder at the public offering price listed in the applicable prospectus supplement. These sales may be made under "delayed delivery contracts" or other purchase contracts that provide for payment and delivery on a specified future date. Any contracts like this will be described in and be subject to the conditions set forth in a supplement to this prospectus supplement or a post-effective amendment to this registration statement of which this prospectus supplement forms a part.

Broker-dealers or agents may receive compensation in the form of commissions, discounts or concessions from the selling stockholder. Broker-dealers or agents may also receive compensation from the purchasers of Registered Shares for whom they act as agents or to whom they sell as principals, or both. Compensation as to a particular broker-dealer might be in excess of customary commissions and will be in amounts to be negotiated in connection with transactions involving securities. In effecting sales, broker-dealers engaged by the selling stockholder may arrange for other broker-dealers to participate in the resales.

In connection with sales of Registered Shares covered hereby, the selling stockholder and any underwriter, broker-dealer or agent, any other participating broker-dealer that executes sales for the selling stockholder may be deemed to be an "underwriter" within the meaning of the Securities Act. Accordingly, any profits realized by the selling stockholder and any compensation earned by such underwriter, broker-dealer or agent may be deemed to be underwriting discounts and commissions. If the selling stockholder is an "underwriter" under the Securities Act, it must deliver this prospectus supplement and the accompanying prospectus in the manner required by the Securities Act. This delivery requirement may be satisfied through the facilities of the New York Stock Exchange in accordance with Rule 153 under the Securities Act or satisfied in accordance with Rule 174 under the Securities Act.

We or the selling stockholder may agree to indemnify any underwriters, broker-dealers and agents against or contribute to any payments the underwriters, broker-dealers or agents may be required to make with respect to, civil liabilities, including liabilities under the Securities Act. Underwriters, broker-dealers and agents and their affiliates are permitted to be customers of, engage in transactions with, or perform services for us and our affiliates or the selling stockholder or its affiliates in the ordinary course of business.

In order to comply with applicable securities laws of some states or countries, the Registered Shares may only be sold in those jurisdictions through registered or licensed brokers or dealers and in compliance with applicable laws and regulations. In addition, in certain states or countries the Registered Shares may not be sold unless they have been registered or qualified for sale in the applicable state or country or an exemption from the registration or qualification requirements is available. Any Registered Shares covered by this prospectus supplement that qualify for sale pursuant to Rule 144 under the Securities Act may be sold in open market transactions under Rule 144 rather than pursuant to this prospectus supplement.

In connection with an offering of Registered Shares under this prospectus supplement, the underwriters may purchase and sell securities in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of securities than they are required to purchase in an offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the securities while an offering is in progress.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the underwriters have repurchased securities sold by or for the account of that underwriter in stabilizing or short-covering transactions.

These activities by the underwriters may stabilize, maintain or otherwise affect the market price of the Registered Shares offered under this prospectus supplement. As a result, the price of the Registered Shares may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected on the New York Stock Exchange, the NASDAQ Stock Exchange or another securities exchange or automated quotation system, or in the over-the-counter market or otherwise.

OUR COMPANY

We are a market leader and a pioneer in the new era of health care delivery and payment, in which leading health systems and physician organizations, which we refer to as providers, are taking on increasing clinical and financial responsibility for the populations they serve. Our purpose-built platform, powered by our technology, proprietary processes and integrated services, enables providers to migrate their economic orientation from fee-for-service (“FFS”) reimbursement to payment models that reward high-quality and cost-effective care, or value-based payment models. By partnering with providers to accelerate their path to value-based care, we enable our provider partners to expand their market opportunity, diversify their revenue streams, grow market share and improve the quality of the care they provide.

We consider value-based care to be the necessary convergence of health care payment and delivery. We believe the pace of this convergence is accelerating, driven by price pressure in traditional FFS health care, a market environment that is incentivizing value-based care models and innovation in data and technology. We believe providers are positioned to lead this transition to value-based care because of their control over large portions of health care delivery costs, their primary position with consumers and their strong local brand.

Today, increasing numbers of providers are adopting value-based strategies, including contracting for capitated arrangements with existing insurance companies, governmental payers or large self-funded employers and managing their own captive health plans. Through value-based care, providers are in the early stages of transforming their role in health care as they attempt to defend their existing position and capture a greater portion of the more than two trillion dollars in annual health insurance expenditures. While approximately ten percent of health care payments were paid through value-based care programs as of June 2014, including through models created by systems like UPMC, Kaiser Permanente and Intermountain Healthcare, it is estimated that this number will grow to over fifty percent by 2020. There were over 100 provider-owned health plans as of 2014 and this number continues to grow. The number of accountable care organizations (“ACOs”), or organizations of groups of doctors, hospitals and other health care providers which have come together voluntarily to provide coordinated care to their Medicare patients constructed to manage capitated or value-based arrangements with existing insurance companies or government payers, grew to 742 by the end of 2014.

We believe the transformation of the provider business model will require a set of core capabilities, including the ability to aggregate and understand disparate clinical and financial data, standardize and integrate technology into care processes, manage population health and build a

financial and administrative infrastructure that capitalizes on the clinical and financial value it delivers. We provide an end-to-end, built-for-purpose, technology-enabled services platform for providers to transition their organization and business model to succeed in value-based payment models. In addition to our services platform, we provide a financial and administrative management platform to capture value through a variety of value-based arrangements and in certain instances participate alongside our partners in risk sharing arrangements whereby we share in a portion of the upside and downside performance of the value strategy. The core elements of our platform include:

- ***Integrated technology, proprietary process and clinical services model*** that enables the delivery of a high-performing population health organization, an aligned clinical delivery network to provide high-quality, coordinated care and an efficient administrative infrastructure to administer value-based care payment relationships.
- ***Identifi[®], our technology platform***, delivers the data aggregation and stratification, proven value-based care content, electronic medical records (“EMR”) optimization and proprietary applications that allow providers to standardize the delivery of care and enable clinical and financial analytics.
- ***Our complementary value-based operations*** are empowered and supported by Identifi[®]. Other elements include: (1) an aligned clinical delivery network to provide improved, coordinated care, (2) a high-performing population health organization that drives clinical outcomes, (3) an efficient administrative infrastructure to administer value-based payments and (4) integration of cost management solutions, such as pharmacy benefit management (“PBM”), or the administration of prescription drug programs, including developing and maintaining a list of medications that are approved to be prescribed, contracting with pharmacies, negotiating discounts and rebates with drug manufacturers and processing prescription drug claim payments, and patient risk scoring.
- ***A single point of integration between payers and the provider community*** enables us to provide an indispensable single point of integration between a diverse set of payers that becomes more valuable over time as our platform becomes the standard for value-based care contracting and operations.
- ***Comprehensive financial and administrative services model*** that enables providers to assemble the infrastructure required to operate, manage and capitalize on a variety of value-based arrangements.
- ***Supporting multiple value-based care models***, our platform was built to support a diverse set of provider value-based care strategies ranging from shared medical savings arrangements to launching health plans in both public and private markets.
- ***Long-term, embedded and aligned partnerships with health systems*** to enable us and our provider partners to grow together as we manage increasing populations under value-based care arrangements, including under different risk-bearing models.

We believe we are pioneers in enabling health systems to succeed in value-based payment models. We were founded in 2011 by members of our management team, UPMC, an integrated delivery system based in Pittsburgh, Pennsylvania, and The Advisory Board, to enable providers to pursue a value-based business model and evolve their competitive position and market opportunity. Our mission, technology and services were developed with UPMC, which operates the nation’s largest provider-owned health plan after Kaiser Permanente, and The Advisory Board, whose best practice research and technology solutions were available to a membership base of over 4,400 hospitals and providers as of December 2016.

In October 2016, we acquired Valence Health. Valence Health, based in Chicago, Illinois, was founded in 1996 and provides value-based administration, population health and advisory services with a particular focus on the Medicaid and pediatric markets. At the time of the acquisition, Valence Health was supporting approximately 0.5 million lives across ten long-term operating partners with one additional partnership supporting approximately 0.4 million lives due to come onto the platform on January 1, 2017. We believe that the acquisition of Valence Health is highly complementary to Evolent’s business and brings a number of strategic benefits including: (1) enhanced capabilities in value-based care administration and claims processing; (2) increased presence and experience in the Medicaid market and (3) additional scale to our platform in the form of approximately 1.0 million incremental lives under long-term operating agreements.

We have developed what we believe is a unique partner development model. Most partner relationships begin with our transformation services, during which a partner engages us to develop a customized value-based care execution plan. This allows us to define the opportunity for our partners and embed our technology and processes while building confidence and trust that we are the best long-term infrastructure partner for the provider’s value-based care strategy. We then transition our partner to our platform and operations phase, which is governed by a service contract. We incur significant expenses in securing new partner relationships, and, in 2016, our business development expenses represented 6.4% of our total revenues.

We believe our business model provides strong visibility and aligns our partners’ incentives with our own. Through our financial and administrative management platform, we capture value through a variety of value-based payment arrangements and in certain instances participate alongside our partners in risk sharing arrangements. A large portion of our revenue is derived from our multi-year contracts, which are linked to the number of members that our partners are managing under a value-based care arrangement. This variable pricing model depends on the number of services and technology applications that our partners utilize to advance their value-based care strategies and the number of members they are able to attract over time. We expect to grow with current partners as they increase membership in their existing value-based

programs, through expanding the number of services we provide to our existing partners, by adding new partners and by capturing value through upside risk sharing arrangements.

We believe we are in the early stages of capitalizing on these aligned operating partnerships. We believe our health system partners' current value-based care arrangements represent a small portion of the health system's total revenue each year. We believe the proportion of value-based care related revenues to total health system revenues will continue to grow, driven by continued price pressure in FFS, new government payment programs, growth in consumer-focused insurance programs, such as Medicare Advantage and managed Medicaid, and innovation in data and technology. Our business model benefits from scale, as we leverage our purpose-built technology platform and centralized resources in conjunction with the growth of our partners' membership base. These resources include our network development capabilities, PBM administration, technology development, clinical program development and data analytics and network development. While our absolute investment in our centralized resources and technologies will increase over time, we expect it will decrease as a percentage of revenue as we are able to scale this investment across a broader group of partners.

USE OF PROCEEDS

Unless otherwise set forth in a prospectus supplement, the net proceeds from any issuance and sale of Class A common stock for cash by Evolent Health, Inc. pursuant to this prospectus will be transferred promptly either to Evolent Health LLC in exchange for one Class A common unit, or to a holder of Class B common units in exchange for a Class B common unit and a share of our Class B common stock. See "Certain Contractual Arrangements with Certain Stockholders".

Unless otherwise set forth in a prospectus supplement, Evolent Health LLC will use any contribution received from Evolent Health, Inc. for working capital and other general corporate purposes, including to expand our business through acquisitions and investments. Evolent Health LLC will have broad discretion in the application of such proceeds and may not apply the proceeds effectively. However, as of the date of this prospectus, we cannot specify with certainty the particular uses of these proceeds for such purposes. Management might not be able to yield a significant return, or any return, on any investment of these proceeds. You will not have the opportunity to influence decisions on the use of these proceeds.

SELLING STOCKHOLDERS

Because we are a WKSI, we may register the shares of our Class A common stock for resale by certain selling stockholders. Information about selling stockholders, where applicable, including their identities and the number of shares of Class A common stock registered on their behalf, will be set forth in a prospectus supplement, in a post-effective amendment or in documents incorporated by reference into this prospectus that we file with the SEC. No selling stockholder shall sell any shares of our Class A common stock pursuant to this prospectus until we have identified such selling stockholder and the shares being offered for resale by such selling stockholder in a subsequent prospectus supplement or in a post-effective amendment. However, selling stockholders may sell or transfer all or a portion of their shares of our Class A common stock pursuant to any available exemption from the registration requirements of the Securities Act.

DESCRIPTION OF CAPITAL STOCK

The following sets forth certain general terms of the capital stock of Evolent Health, Inc. This information may not be complete in all respects and is qualified in its entirety by reference to the General Corporation Law of the State of Delaware (the "DGCL") and our certificate of incorporation and by-laws. Copies of our certificate of incorporation and by-laws have been filed with the SEC and are incorporated by reference as exhibits to the registration statement of which this prospectus is a part. See "Where You Can Find More Information."

Our certificate of incorporation provides that we may issue up to 750,000,000 shares of Class A common stock, par value \$0.01 per share, 100,000,000 shares of Class B common stock, par value \$0.01 per share and 50,000,000 shares of preferred stock, par value \$0.01 per share.

As of August 2, 2017, there were 65,822,144 shares of our Class A common stock issued and outstanding. All shares of our Class A common stock offered hereby will be duly authorized, fully paid and nonassessable.

Class A common stock

Voting rights. Except as otherwise provided in our certificate of incorporation or required by law, the holders of Class A common stock are entitled to one vote per share on all matters to be voted upon by the stockholders.

Dividend rights. Subject to preferences that may be applicable to any outstanding preferred stock, the holders of Class A common stock are entitled to receive ratably such dividends, if any, as may be declared from time to time by the board of directors out of funds legally available therefor.

We currently anticipate that we will retain all of our future earnings for use in the expansion and operation of our business and do not anticipate paying any cash dividends in the foreseeable future. However, we will be required to pay cash dividends out of our future earnings to the extent that cash distributions from Evolent Health LLC are materially in excess of our assumed tax liability and our obligations under the tax receivables agreement described below. The declaration and payment of all other future dividends to holders of our Class A common stock will be at the discretion of our board of directors and will depend on many factors, including our financial condition, earnings, legal requirements and any debt agreements we are then party to, and other factors our board of directors deems relevant. See “Risk Factors-Risks relating to our structure-We are a holding company and our only material assets is our interest in Evolent Health LLC and, accordingly, we are dependent upon distributions from Evolent Health LLC to pay taxes and other expenses” of our 2016 10-K.

Rights upon liquidation. In the event of liquidation, dissolution or winding up of Evolent Health, Inc., the holders of Class A common stock are entitled to share ratably in all assets remaining after payment of liabilities, subject to prior distribution rights of preferred stock, if any, then outstanding.

Other rights. The holders of our Class A common stock have no preemptive or conversion rights or other subscription rights. There are no redemption or sinking fund provisions applicable to the Class A common stock. The rights, preferences and privileges of holders of our common stock will be subject to those of the holders of any shares of our preferred stock we may issue in the future.

Class B common stock

Shares of our Class B common stock are issuable only in connection with the issuance of Class B common units of Evolent Health LLC. When a Class B common unit is issued by Evolent Health LLC, we will issue the holder one share of our Class B common stock.

Exchange rights. Each share of our Class B common stock will be redeemed and cancelled by us if the holder exchanges one Class B common unit and such share of Class B common stock for one share of Class A common stock pursuant to the terms of the exchange agreement, which is incorporated by reference as an exhibit to the registration statement of which this prospectus forms a part. See “Certain Contractual Arrangements with Certain Stockholders-Third amended and restated operating agreement of Evolent Health LLC-Exchange agreement”.

Voting rights. Our Class B stockholders are entitled to one vote for each share on all matters voted upon by our stockholders. Our Class A stockholders and Class B stockholders vote together as a single class on all matters (including the election of directors) submitted to a vote of stockholders, unless otherwise required by law. Delaware law would require our Class A stockholders and Class B stockholders to vote separately as a single class in the following circumstances:

- if we amend our certificate of incorporation to increase the authorized shares of a class of stock, or to increase or decrease the par value of a class of stock, then such class would be required to vote separately to approve the proposed amendment; or
- if we amend our certificate of incorporation in a manner that alters or changes the powers, preferences or special rights of a class of stock in a manner that affects holders of such class of stock adversely, then such class would be required to vote separately to approve such proposed amendment.

Dividend rights. Our Class B stockholders will not participate in any cash dividends declared by our board of directors.

Rights upon liquidation. In the event of any dissolution, liquidation or winding up of our affairs, whether voluntary or involuntary, after payment of our debts and other liabilities and making provision for any holders of our preferred stock who have a liquidation preference, our Class B stockholders who have not exchanged their shares of Class B common stock for a like number of shares of Class A common stock in accordance with the exchange agreement prior to such dissolution, liquidation or winding up of our affairs will not be entitled to receive any of our assets.

Other rights. In the event of our merger or consolidation with or into another company in connection with which shares of Class A common stock and Class B common stock (together with the related Class B common units) are converted into, or become exchangeable for, shares of stock, other securities or property (including cash), each Class B stockholder will be entitled to receive the same number of shares of stock as is received by Class A stockholders for each share of Class A common stock, and will not be entitled, for each share of Class B common stock, to receive other securities or property (including cash). No shares of Class B common stock will have preemptive rights to purchase additional shares of Class B common stock.

Preferred stock

Our board of directors has the authority to issue shares of preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions thereof, including dividend rights, dividend rates, conversion rights, voting rights, terms of redemption, redemption prices, liquidation preferences and the number of shares constituting any series or the designation of such series, without further vote or action by the stockholders.

The issuance of preferred stock may have the effect of delaying, deferring or preventing a change in control of Evolent Health, Inc. without further action by the stockholders and may adversely affect the voting and other rights of the holders of Class A common stock. As of August 2, 2017, there were no shares of preferred stock issued and outstanding.

Election and removal of directors; vacancies

Our board of directors consists of up to 10 directors, excluding any directors elected by holders of any preferred stock pursuant to provisions applicable in the case of defaults. The number of directors may be increased if necessary to satisfy the requirements of applicable laws and stock exchange regulations. The exact number of directors will be fixed from time to time by resolution of the board.

In accordance with our certificate of incorporation and by-laws, our board of directors currently consists of 10 members and is divided into three staggered classes of directors, as nearly equal in number as possible. At each annual meeting of our stockholders, our stockholders elect a class of directors for a three-year term to succeed the directors of the same class whose terms are then expiring. As a result, a portion of our board of directors is elected each year. There is no limit on the number of terms a director may serve on our board of directors. The division of our board of directors into three classes with staggered three-year terms may have the effect of discouraging, delaying or preventing a transaction involving a change in control.

In connection with our IPO, we entered into a stockholders agreement with TPG Global, LLC and its affiliates (“TPG”), University of Pittsburgh Medical Center (“UPMC”) and The Advisory Board Company (“The Advisory Board”). The stockholders agreement contains provisions related to the composition of our board of directors, the committees of our board of directors and our corporate governance. Under the stockholders agreement, TPG, UPMC and The Advisory Board are entitled to nominate a majority of the members of our board of directors. Specifically, for so long as each of TPG, UPMC and The Advisory Board owns at least 40% of the shares of common stock (including both our Class A common stock and Class B common stock) held by it following the completion of our IPO, such stockholder will be entitled to nominate two directors to serve on our board of directors. When such stockholder owns less than 40% but at least 5% of the shares of common stock (including both our Class A common stock and Class B common stock) held by it following the completion of our IPO, such stockholder will be entitled to nominate one director. TPG, UPMC and The Advisory Board have agreed in the stockholders agreement to vote for each other’s board nominees. Pursuant to these provisions, TPG has designated Matthew Hobart and Norman Payson, MD, UPMC has designated Diane Holder and David Farner, and The Advisory Board has designated Michael D’Amato and Michael Kirshbaum, all of whom currently sit on our board of directors. Prior to Mr. D’Amato joining our board in April 2016, The Advisory Board had designated Robert Musslewhite as a member of our board of directors. Following the June 2017 Secondary Offering referred to below, TPG owns less than 40% but more than 5% of the shares of common stock (including both our Class A common stock and Class B common stock) held by it following the completion of our IPO.

Our certificate of incorporation and by-laws provide that directors may be removed only for cause and only upon the affirmative vote of holders of at least 75% of the voting power of all the then outstanding shares of stock entitled to vote generally in the election of directors, voting together as a single class.

In addition, our certificate of incorporation and by-laws provide that any newly-created directorship on the board of directors that results from an increase in the number of directors and any vacancy occurring on the board of directors shall be filled only by a majority of the directors then in office, although less than a quorum, or by a sole remaining director.

No cumulative voting

The DGCL provides that stockholders are not entitled to the right to cumulate votes in the election of directors unless our certificate of incorporation provides otherwise. Our certificate of incorporation prohibits cumulative voting.

Limits on written consents

The DGCL permits stockholder action by written consent unless otherwise provided by our certificate of incorporation. Our certificate of incorporation precludes stockholder action by written consent.

Stockholder meetings

Our certificate of incorporation and by-laws provide that special meetings of stockholders may be called only by or at the direction of the board of directors, the chairman of the board of directors or the chief executive officer. Our certificate of incorporation and by-laws specifically deny any power of any other person to call a special meeting.

Amendment of certificate of incorporation

The affirmative vote of holders of at least a majority of the voting power of our outstanding shares of stock will generally be required to amend provisions of our certificate of incorporation. However, the affirmative vote of holders of at least 75% of the voting power of our outstanding shares of stock will generally be required to amend certain provisions of our certificate of incorporation.

Amendment of by-laws

Our by-laws may generally be altered, amended or repealed, and new by-laws may be adopted, by the affirmative vote of a majority of directors present at any regular or special meeting of the board of directors called for that purpose or by the affirmative vote of holders of at least 75% of the voting power of our outstanding shares of voting stock.

Other limitations on stockholder actions

Our by-laws also impose some procedural requirements on stockholders who wish to:

- make nominations in the election of directors;
- propose that a director be removed;
- propose any repeal or change in our by-laws; or
- propose any other business to be brought before an annual meeting of stockholders.

Under these procedural requirements, in order to bring a proposal before a meeting of stockholders, a stockholder must deliver timely notice of a proposal pertaining to a proper subject for presentation at the meeting to our corporate secretary along with the following:

- a description of the business or nomination to be brought before the meeting and the reasons for conducting such business at the meeting;
- the stockholder's name and address;
- any material interest of the stockholder in the proposal;
- the number of shares beneficially owned by the stockholder and evidence of such ownership; and
- the names and addresses of all persons with whom the stockholder is acting in concert and a description of all arrangements and understandings with those persons, and the number of shares such persons beneficially own.

To be timely, a stockholder must generally deliver notice:

- in connection with an annual meeting of stockholders, not less than 120 nor more than 150 days prior to the month and day corresponding to the date on which the annual meeting of stockholders was held in the immediately preceding year, but in the event that the date of the annual meeting is more than 30 days before or more than 30 days after the anniversary date of the preceding annual meeting of stockholders, a stockholder notice will be timely if received by us not later than the close of business on the 10th day following the day on which we first publicly announce the date of the annual meeting; or
- in connection with the election of a director at a special meeting of stockholders, not less than 40 nor more than 60 days prior to the date of the special meeting, but in the event that less than 50 days' notice or prior public disclosure of the date of the special meeting of the stockholders is given or made to the stockholders, a stockholder notice will be timely if received by us not later than the close of business on the 10th day following the day on which a notice of the date of the special meeting was mailed to the stockholders or the public disclosure of that date was made.

In order to submit a nomination for our board of directors, a stockholder must also submit any information with respect to the nominee that we would be required to include in a proxy statement, as well as certain other information. If a stockholder fails to follow the required procedures, the stockholder's proposal or nominee will be ineligible and will not be voted on by our stockholders.

Corporate opportunity

Our certificate of incorporation and the stockholders agreement provide that each of TPG, The Advisory Board and UPMC and their respective affiliates will not have any duty to refrain from (i) engaging, directly or indirectly, in the same or similar business activities or lines of business as us, including those business activities or lines of business deemed to be competing with us, or (ii) doing business with any of our clients, customers or vendors. In the event that TPG, The Advisory Board or UPMC or any of their respective affiliates acquires knowledge of a potential business opportunity which may be a corporate opportunity for us, they will have no duty to communicate or offer such corporate opportunity to us. Our certificate of incorporation and the stockholders agreement also provide that, to the fullest extent permitted by law, none of such stockholders or their respective affiliates will be liable to us, for breach of any fiduciary duty or otherwise, by reason of the fact that any such stockholder or any of its affiliates directs such corporate opportunity to another person, or otherwise does not communicate information regarding such corporate opportunity to us, and we will waive and renounce any claim that such business opportunity constituted a corporate opportunity that should have been presented to us.

Limitation of liability of directors and officers

Our certificate of incorporation provides that no director will be personally liable to us or our stockholders for monetary damages for breach of fiduciary duty as a director, except as required by applicable law, as in effect from time to time. Currently, Delaware law requires that liability be imposed for the following:

- any breach of the director's duty of loyalty to our company or our stockholders;
- any act or omission not in good faith or which involved intentional misconduct or a knowing violation of law;
- unlawful payments of dividends or unlawful stock repurchases or redemptions as provided in Section 174 of the DGCL; and
- any transaction from which the director derived an improper personal benefit.

As a result, neither we nor our stockholders have the right, through stockholders' derivative suits on our behalf, to recover monetary damages against a director for breach of fiduciary duty as a director, including breaches resulting from grossly negligent behavior, except in the situations described above.

Our by-laws provide that, to the fullest extent permitted by law, we will indemnify any officer or director of our company against all damages, claims and liabilities arising out of the fact that the person is or was our director or officer, or served any other enterprise at our request as a director, officer, employee, agent or fiduciary. We will reimburse the expenses, including attorneys' fees, incurred by a person indemnified by this provision when we receive an undertaking to repay such amounts if it is ultimately determined that the person is not entitled to be indemnified by us. Amending these provisions will not reduce our indemnification obligations relating to actions taken before an amendment.

Forum selection

Our certificate of incorporation requires, to the fullest extent permitted by law, that derivative actions brought on our behalf, any action asserting a claim of breach of a fiduciary duty owed by any of our directors, officers or other employees to us or our stockholders and other similar actions, may be brought only in specified courts in the State of Delaware. Although we believe this provision benefits us by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, the provision may have the effect of discouraging lawsuits against our directors and officers.

Anti-takeover effects of some provisions

Some provisions of our certificate of incorporation and by-laws could make the following more difficult:

- acquisition of control of us by means of a proxy contest or otherwise; or
- removal of our incumbent officers and directors.

These provisions, as well as our ability to issue preferred stock, are designed to discourage coercive takeover practices and inadequate takeover bids. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with our board of directors. We believe that the benefits of increased protection give us the potential ability to negotiate with the proponent of an unfriendly or unsolicited proposal to acquire or restructure us, and that the benefits of this increased protection outweigh the disadvantages of discouraging those proposals, because negotiation of those proposals could result in an improvement of their terms.

Delaware business combination statute

We have elected in our certificate of incorporation not to be subject to Section 203 of the DGCL, an antitakeover law. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a business combination, such as a merger, with a person or group owning 15% or more of the corporation's voting stock for a period of three years following the date the person became an interested stockholder, unless (with certain exceptions) the business combination or the transaction in which the person became an interested stockholder is approved in a prescribed manner. Accordingly, we will not be subject to any anti-takeover effects of Section 203. Nevertheless, our certificate of incorporation contains provisions that have the same effect as Section 203, except that they provide that each of TPG, UPMC and The Advisory Board and their transferees will not be deemed to be "interested stockholders", regardless of the percentage of our voting stock owned by them, and accordingly will not be subject to such restrictions.

Listing

Our Class A common stock is listed on the NYSE under the symbol "EVH".

Transfer agent and registrar

The transfer agent and registrar for the Class A common stock is American Stock Transfer & Trust Company, LLC.

CERTAIN CONTRACTUAL ARRANGEMENTS WITH CERTAIN STOCKHOLDERS

In connection with our IPO and offering reorganization, we entered into several agreements to define and regulate the governance and control relationships among us, Evolent Health LLC and certain stockholders. The following provides a summary of the material provisions of the agreements discussed. However, these summaries do not purport to be complete, and they are subject to, and qualified in their entirety by reference to, the complete text of the agreements which are filed as exhibits to the registration statement of which this prospectus forms a part. You should carefully read each agreement discussed.

Third amended and restated operating agreement of Evolent Health LLC

We operate our business through Evolent Health LLC. The operations of Evolent Health LLC, and the rights and obligations of its members are governed by the third amended and restated operating agreement of Evolent Health LLC, dated June 4, 2015.

Governance

We serve as sole managing member of Evolent Health LLC. As such, we control its business and affairs and are responsible for the management of its business.

No other members of Evolent Health LLC, in their capacity as such, will have any authority or right to control the management of Evolent Health LLC or to bind it in connection with any matter.

Voting and economic rights of members

Evolent Health LLC has two series of outstanding equity: Class A common units, which may only be issued to Evolent Health, Inc., as sole managing member, and Class B common units. We refer to these Class A common units and Class B common units of Evolent Health LLC, collectively, as common units. The Class B common units are held by TPG, The Advisory Board and Ptolemy Capital, LLC. The Class A common units and Class B common units entitle their holders to equivalent economic rights, meaning an equal share in the profits and losses of, and distributions from, Evolent Health LLC. Holders of Class B common units have no voting rights, except for the right to approve certain amendments to the third amended and restated operating agreement.

Net profits and losses of Evolent Health LLC generally are allocated, and distributions are made, to its members pro rata in accordance with the number of common units (Class A or Class B, as the case may be) they hold. Accordingly, as of August 2, 2017, net profits and net losses of Evolent Health LLC are allocated, and distributions made, approximately 96.1% to us and 3.9% to the holders of Class B common units, respectively.

Subject to the availability of net cash flow at the Evolent Health LLC level and to applicable legal and contractual restrictions, we intend to cause Evolent Health LLC to distribute to us, and to the other holders of common units, cash payments for the purposes of funding tax obligations in respect of any net taxable income that is allocated to us and the other holders of common units as members of Evolent Health LLC to fund dividends, if any, declared by us and to make any payments due under the tax receivables agreement, as described below. Regardless of whether Evolent Health LLC makes distributions to its members in any given year, the determination to pay dividends, if any, to holders of our Class A common stock will be made by our board of directors except that we will be required to pay cash dividends out of our future earnings to the extent that cash distributions from Evolent Health LLC are materially in excess of our assumed tax liability and our obligations under the tax receivables agreement. We do not, however, expect to declare or pay any cash or other dividends in the foreseeable future on our Class A common stock, as we intend to reinvest any cash flow generated by operations in our business. Class B common stock is not entitled to any dividend payments.

Coordination of Evolent Health, Inc. and Evolent Health LLC

Whenever we issue one share of Class A common stock for cash, the net proceeds will be transferred promptly either to Evolent Health LLC in exchange for one Class A common unit, or to a holder of Class B common units in exchange for a Class B common unit and a share of our Class B common stock. If we issue other classes or series of equity securities, we will contribute to Evolent Health LLC the net proceeds we receive in connection with such issuance, and Evolent Health LLC will issue to us an equal number of equity securities with designations, preferences and other rights and terms that are substantially the same as our newly issued equity securities. Conversely, if we repurchase any shares of Class A common stock (or equity securities of other classes or series) for cash, Evolent Health LLC will, immediately prior to our repurchase, redeem an equal number of Class A common units (or its equity securities of the corresponding classes or series), upon the same terms and for the same price, as the shares of our Class A common stock (or our equity securities of such other classes or series) that are repurchased. Common units and shares of our common stock will be subject to equivalent stock splits, dividends and reclassifications.

We will not conduct any business other than the management and ownership of Evolent Health LLC, or own any other material assets (other than on a temporary basis), although we may take such actions and own such assets as are necessary to comply with applicable law, including compliance with our responsibilities as a public company under the U.S. federal securities laws, and may incur indebtedness and take other actions if we determine that doing so is in our best interest.

Issuances of common units

Class A common units may be issued only to us as the sole managing member of Evolent Health LLC. Class B common units may be issued only to persons or entities we permit which, following the completion of our IPO, were TPG, The Advisory Board and one of our other investors. Such issuances shall be made in exchange for cash or other consideration. Class B common units may not be transferred as Class B common units except to certain permitted transferees and in accordance with the restrictions on transfer set forth in the third amended and restated operating agreement of Evolent Health LLC. Any such transfer must be accompanied by the transfer of an equal number of shares of our Class B common stock.

Exchange agreement

In connection with our IPO, we entered into an exchange agreement with Evolent Health LLC, The Advisory Board, TPG and another investor, which are the existing holders of the Class B common units of Evolent Health LLC. Pursuant to and subject to the terms of the exchange agreement and the third amended and restated operating agreement of Evolent Health LLC, holders of Class B common units, at any time and from time to time, may exchange one or more Class B common units, together with an equal number of shares of our Class B common stock, for shares of our Class A common stock on a one-for-one basis (a “Class B Exchange”). Such exchange may be completed, at the election of Evolent Health LLC, by us or Evolent Health LLC. If Evolent Health LLC completes such exchange, we will contribute Class A common stock to Evolent Health LLC prior to the exchange. The amount of Class A common stock issued or conveyed will be subject to equitable adjustments for stock splits, stock dividends and reclassifications.

Holders will not have the right to exchange Class B common units if we determine that such exchange would be prohibited by applicable law or regulation, would violate other agreements to which we may be subject or would pose a material risk that Evolent Health LLC would be treated as a “publicly traded partnership” for U.S. federal income tax purposes. If the Internal Revenue Service (the “IRS”) were to contend successfully that Evolent Health LLC should be treated as a “publicly traded partnership” for U.S. federal income tax purposes, Evolent Health LLC would be treated as a corporation for U.S. federal income tax purposes and thus would be subject to entity-level tax on its taxable income. A holder that exchanges Class B common units will also be required to deliver an equal number of shares of our Class B common stock. In connection with each exchange, Evolent Health LLC will cancel the delivered Class B common units and issue to us Class A common units on a one-for-one basis. Thus, as holders exchange their Class B common units for Class A common stock, our interest in Evolent Health LLC will increase.

The third amended and restated operating agreement prohibits certain business combination transactions in which our Class A common stock is exchanged for consideration unless each holder of shares of Class A common stock or Class B common stock is allowed to participate equally in the transaction as if the Class B common stock, together with the corresponding number of Class B units, had been exchanged for shares of Class A common stock pursuant to the exchange agreement immediately prior to the transaction.

We, Evolent Health LLC and the exchanging holder will each generally bear our own expenses in connection with an exchange, except that, subject to a limited exception, we are required to pay any transfer taxes, stamp taxes or duties or other similar taxes in connection with such an exchange.

See “-Registration rights agreement” below for a discussion of exchanges in connection with secondary offerings of Class A common stock. We have reserved for issuance 2,653,544 shares of our Class A common stock for potential exchange in the future for Class B common units, which is the aggregate number of Class B common units outstanding as of August 2, 2017.

Exculpation and indemnification

The third amended and restated operating agreement of Evolent Health LLC contains provisions limiting the liability of Evolent Health LLC’s members (including Evolent Health, Inc.), officers and their respective affiliates to Evolent Health LLC or any of its members. Moreover, the third amended and restated operating agreement contains broad indemnification provisions for Evolent Health LLC’s members (including Evolent Health, Inc.), officers and their respective affiliates. Because Evolent Health LLC is a limited liability company, these provisions are not subject to the limitations on exculpation and indemnification contained in the Delaware General Corporation Law with respect to the indemnification that may be provided by a Delaware corporation to its directors and officers.

Voting rights of Class A stockholders and Class B stockholders

Each share of our Class A common stock or our Class B common stock entitles its holder to one vote. As of August 2, 2017, our Class B stockholders collectively held approximately 19.5% of the total voting power of our common stock by virtue of their ownership of Class A common stock and Class B common stock.

Tax consequences

Holders of common units of Evolent Health LLC, including Evolent Health, Inc., generally incur U.S. federal, state and local and non-U.S. income taxes on their allocable shares of any net taxable income of Evolent Health LLC. The third amended and restated operating agreement of Evolent Health LLC provides for cash distributions to its members in an amount at least equal to the members’ assumed tax liability attributable to Evolent Health LLC. Distributions in respect of the members’ assumed tax liability generally are computed based on our estimate of the net taxable income of Evolent Health LLC allocable per common unit multiplied by an assumed tax rate. As a result, these

distributions will be pro rata in accordance with the number of common units (Class A or Class B) held. Funds used by Evolent Health LLC to satisfy its tax distribution obligations will not be available for reinvestment in our business. Moreover, these tax distributions may be substantial, and will likely exceed (as a percentage of Evolent Health LLC's income) the overall effective tax rate applicable to a similarly situated corporate taxpayer. In addition, as a result of potential differences in the amount of net taxable income allocable to us and to the other members of Evolent Health LLC, as well as the use of an assumed tax rate in calculating Evolent Health LLC's distribution obligations, we may receive distributions significantly in excess of our tax liabilities and obligations to make payments under the tax receivables agreement described below. In accordance with the third amended and restated operating agreement, Evolent Health LLC intends to make distributions to its members in respect of such assumed tax liability and to fund dividends, if any, declared by us, as well as any payments we are obligated to make under the tax receivables agreement described below.

Evolent Health LLC made an election under Section 754 of the Internal Revenue Code of 1986, as amended, (the "Code") which was effective for 2015 and will be effective for each taxable year in which an exchange of Class B common units occurs, together with an equal number of shares of our Class B common stock, for shares of our Class A common stock. As a result of this election, exchanges of Class B common units, together with an equal number of shares of our Class B common stock, for shares of our Class A common stock, have resulted, and future exchanges are expected to result, in increases in the tax basis of our share of the tangible and intangible assets of Evolent Health LLC at the time of such exchange, which will increase the tax depreciation and amortization deductions available to us and which could create other tax benefits. Any such increases in tax basis and tax depreciation and amortization deductions or other tax benefits could reduce the amount of tax that we would otherwise be required to pay in the future.

In addition, certain net operating losses of Evolent Health Holdings, Inc. and an affiliate of TPG are available to us as a result of the offering reorganization. We are required to pay a portion of the cash savings we actually realize from such increase in the tax basis of the tangible and intangible assets of Evolent Health LLC or from the utilization of such net operating losses to certain holders of Class B common units or contributors of the net operating losses pursuant to the tax receivables agreement.

Furthermore, payments under the tax receivables agreement, as described below, will themselves give rise to additional tax benefits and therefore, to additional payments under the tax receivables agreement. To the extent that we are unable to make payments under the tax receivables agreement for any reason, such payments will be deferred and will accrue interest until paid. See "-Tax receivables agreement."

Tax receivables agreement

Exchanges of Class B common units of Evolent Health LLC, together with an equal number of shares of our Class B common stock, for shares of our Class A common stock, have occurred and will likely occur in the future. Past exchanges have resulted in, and future exchanges are expected to result in, increases in the tax basis of our share of the assets of Evolent Health LLC. These increases in tax basis have increased as a result of past exchanges, and future exchanges are expected to increase, our depreciation and amortization deductions and create other tax benefits and, therefore, may reduce the amount of tax that we would otherwise be required to pay in the future. In addition, certain net operating losses of Evolent Health Holdings, Inc. and of an affiliate of TPG are available to us as a result of the offering reorganization.

As part of our IPO, we entered into a tax receivables agreement with the holders of Class B common units and certain of our other investors. The agreement requires us to pay to such holders 85% of the cash savings, if any, in U.S. federal, state and local and non-U.S. income tax (as applicable) we realize as a result of any deductions attributable to increases in tax basis following the exchanges described above (calculated assuming that any post-IPO transfer of Class B common units had not occurred) or deductions attributable to imputed interest or future increases in tax basis following payments made under the tax receivables agreement. Additionally, pursuant to the same agreement we will pay the former stockholders of Evolent Health Holdings, Inc. 85% of the amount of the cash savings, if any, in U.S. federal, state and local and non U.S. income tax that we realize as a result of the utilization of approximately \$79.3 million of net operating losses of Evolent Health Holdings, Inc. and an affiliate of TPG attributable to periods prior to our IPO, as well as deductions attributable to imputed interest on any payments made under the agreement.

We will benefit from the remaining 15% of any realized cash savings. For purposes of the tax receivables agreement, cash savings in income tax will be computed by comparing our actual income tax liability with our hypothetical liability had we not been able to utilize the tax benefits subject to the tax receivables agreement.

Additionally, the amount of the increase in tax basis following an exchange of Class B common units will be calculated assuming that any post-IPO transfer of such Class B common units had not occurred. Therefore we may be required to make payments under the tax receivables agreement that are attributable to an increase in tax basis caused by appreciation in value prior to such a transfer. The tax receivables agreement will remain in effect until all such tax benefits have been used or expired, unless the agreement is terminated early, as described below. Estimating the amount of payments to be made under the tax receivables agreement cannot be done reliably at this time because any increase in tax basis, as well as the amount and timing of any payments under the tax receivables agreement, will vary depending on a number of factors, including:

- the timing of exchanges of Class B common units (together with an equal number of shares of our Class B common stock) for shares of our Class A common stock-for instance, the increase in any tax deductions will vary depending on the fair market value of the depreciable and amortizable assets of Evolent Health LLC at the time of the exchanges, and this value may fluctuate over time;

- the price of our Class A common stock at the time of exchanges of Class B common units (together with an equal number of shares of our Class B common stock) for shares of our Class A common stock—the increase in our share of the basis in the assets of Evolent Health LLC, as well as the increase in any tax deductions, will be related to the price of our Class A common stock at the time of these exchanges;
- the tax rates in effect at the time we use the increased amortization and depreciation deductions or realize other tax benefits;
- any limitation on our utilization of the net operating losses formerly held by Evolent Health Holdings, Inc. or an affiliate of TPG under Section 382 of the Code; and
- the amount, character and timing of our taxable income.

We are required under the tax receivables agreement to pay 85% of the tax savings, described above, if any, as and if realized. Except in certain circumstances, if in a given taxable year we do not have taxable income, before taking into account any tax benefits subject to the tax receivables agreement, we will not be required to make payments under the agreement for that taxable year because no tax savings will have been realized.

The payments that we make under the tax receivables agreement could be substantial. Assuming no material changes in relevant tax law and based on our current operating plan and other assumptions, including our estimate of the tax basis of our assets as of the date of the offering reorganization, if all of the outstanding Class B common units were acquired by us in taxable transactions on August 4, 2017 for a price of \$24.10 per Class B common unit (based on the last reported sale price of our Class A common stock on August 4, 2017), we estimate that the total amount that we would be required to pay under the tax receivables agreement could be approximately \$197.5 million. This estimated amount includes approximately \$26.3 million of potential future payments under the tax receivables agreement related to the future utilization of the pre-IPO net operating losses described above and approximately \$142.9 million of potential future payments related to the tax basis step-up of the assets of Evolent Health LLC in connection with the exchanges that occurred in connection with our completed secondary offerings. The actual amount we will be required to pay under the tax receivables agreement may be materially greater than these hypothetical amounts, as potential future payments will vary depending on a number of factors, including those listed above. The obligations under the tax receivables agreement are obligations of Evolent Health, Inc. and not obligations of Evolent Health LLC. Payments under the tax receivables agreement are generally due within a specified period of time following the filing of our tax return for the taxable year with respect to which the payment obligation arises, but interest on such payments will begin to accrue at a rate of LIBOR plus 100 basis points from the due date (without extensions) of such tax return. Late payments will generally accrue interest at a rate of LIBOR plus 500 basis points.

The tax receivables agreement provides that upon certain changes of control, or if, at any time, we elect an early termination of the tax receivables agreement or are in material breach of our obligations under the tax receivables agreement, we would be required to make an immediate payment equal to the present value of the anticipated future tax benefits to the existing holders of Class B common units and the former stockholders of Evolent Health Holdings, Inc. Such payment would be based on certain valuation assumptions and deemed events set forth in the tax receivables agreement, including the assumptions that we have sufficient taxable income to fully utilize such tax benefits. The benefits would be payable even though, in certain circumstances, no Class B common units are actually exchanged for our Class A common stock and no net operating losses would actually be used at the time of the accelerated payment under the tax receivables agreement. Accordingly, payments under the tax receivables agreement may be made years in advance of the actual realization, if any, of the anticipated future tax benefits and may be significantly greater than the benefits we realize in respect of the tax attributes subject to the tax receivables agreement.

Were the IRS to successfully challenge the tax basis increases or the existence or amount of net operating losses described above, we would not be reimbursed for any payments previously made under the tax receivables agreement, but future payments under the tax receivables agreement, if any, would be netted against any unreimbursed payments to reflect the result of any such successful challenge by the IRS. As a result, we could make payments under the tax receivables agreement in excess of our actual cash savings in income tax.

Stockholders agreement

In connection with our IPO, we entered into a stockholders agreement with TPG, UPMC and The Advisory Board. The stockholders agreement contains provisions related to the composition of our board of directors, the committees of our board of directors and our corporate governance. Under the stockholders agreement, TPG, UPMC and The Advisory Board are entitled to nominate a majority of the members of our board of directors. Specifically, for so long as each of TPG, UPMC and The Advisory Board owns at least 40% of the shares of common stock (including both our Class A common stock and Class B common stock) held by it following the completion of our IPO, such stockholder will be entitled to nominate two directors to serve on our board of directors. When such stockholder owns less than 40% but at least 5% of the shares of common stock (including both our Class A common stock and Class B common stock) held by it following the completion of our IPO, such stockholder will be entitled to nominate one director. TPG, UPMC and The Advisory Board have agreed in the stockholders agreement to vote for each other's board nominees. Pursuant to these provisions, TPG has designated Matthew Hobart and Norman Payson, MD, UPMC has designated Diane Holder and David Farner, and The Advisory Board has designated Michael D'Amato and Michael Kirshbaum, all of whom currently sit on our board of directors. Prior to Mr. D'Amato joining our board in April 2016, The Advisory Board had designated Robert Musslewhite as a member of our board of directors.

The stockholders agreement provides that each of TPG, The Advisory Board and UPMC and their respective affiliates will not have any duty to refrain from (1) engaging, directly or indirectly, in the same or similar business activities or lines of business as us, including those

business activities or lines of business deemed to be competing with us, or (2) doing business with any of our clients, customers or vendors. In the event that TPG, The Advisory Board or UPMC or any of their respective affiliates acquires knowledge of a potential business opportunity which may be a corporate opportunity of us, they will have no duty to communicate or offer such corporate opportunity to us. The stockholders agreement prohibits certain business combination transactions in which our Class A common stock is exchanged for consideration unless each holder of shares of Class A common stock or Class B common stock is allowed to participate equally in the transaction as if the Class B common stock, together with the corresponding number of Class B units, had been exchanged for shares of Class A common stock pursuant to the exchange agreement immediately prior to the transaction.

Registration rights agreement

In connection with our IPO, we entered into a registration rights agreement with TPG, UPMC, The Advisory Board and another investor to register for sale under the Securities Act shares of our Class A common stock, including those delivered in exchange for Class B common units in the circumstances described above.

Subject to certain conditions and limitations, this agreement provides TPG, The Advisory Board, UPMC and such other investor with certain registration rights as described below.

Pursuant to the registration rights agreement, we registered the potential resale of all the shares of Class A common stock entitled to these registration rights, including such shares reserved for potential exchange in the future for Class B common units, on our Registration Statement on Form S-3, File No. 333-212709, initially filed on July 28, 2016 and declared effective on August 12, 2016.

Piggyback registration rights

If we propose to register any shares of our equity securities under the Securities Act either for our own account or for the account of any other person, then TPG, The Advisory Board, UPMC and the other investor will be entitled to notice of the registration and will be entitled to include their shares of Class A common stock in the registration statement. These piggyback registration rights are subject to specified conditions and limitations, including the right of the underwriters, if any, to limit the number of shares included in any such registration under specified circumstances.

Shelf registration rights

The registration rights agreement granted TPG, The Advisory Board and UPMC the right to have their shares of Class A common stock registered by us on a Form S-3 registration statement at our expense. In accordance with such rights, we have registered all such shares as described above.

In connection with rights of the stockholders party to the registration rights agreement, in September 2016, the company completed a secondary offering of 8.6 million shares of its Class A common stock at a public offering price of \$22.50 per share (the "September 2016 Secondary Offering"). The shares sold in the September 2016 Secondary Offering were sold by certain affiliates of TPG, The Advisory Board, UPMC, Ptolemy Capital, LLC (together, the "Investor Stockholders") and certain management selling stockholders. The company did not receive any proceeds from the sale of the shares. The shares sold in September 2016 Secondary Offering consisted of 6.4 million existing shares of the company's Class A common stock owned and held by the Selling Stockholders and 2.2 million newly-issued shares of the company's Class A common stock received by certain Investor Stockholders pursuant to Class B Exchanges under the Exchange Agreement and certain management selling stockholders in connection with the exercise of outstanding options.

Also in connection with rights of the stockholders party to the registration rights agreement, in March 2017, the company completed another secondary offering of 8.6 million shares of its Class A common stock (the "March 2017 Secondary Offering"). The underwriters purchased the shares from the selling stockholders at a price of \$19.53 per share. The shares sold in March 2017 Secondary Offering were sold by the Investor Stockholders. The company did not receive any proceeds from the sale of the shares. The shares sold in the March 2017 Secondary Offering consisted of 3.6 million existing shares of the company's Class A common stock owned and held by the Investor Stockholders and 5.0 million newly-issued shares of the company's Class A common stock received by certain Investor Stockholders pursuant to Class B Exchanges under the Exchange Agreement.

Also in connection with rights of the stockholders party to the registration rights agreement, in May 2017, the company completed a secondary offering of 7.0 million shares of its Class A common stock at a price to the underwriters of \$24.30 per share (the "May 2017 Secondary Offering"). The shares were sold by Investor Stockholders and certain management selling stockholders. The shares sold in the May 2017 Secondary Offering consisted of 3.1 million existing shares of the company's Class A common stock owned and held by the Selling Stockholders and 3.9 million newly-issued shares of the company's Class A common stock received by certain Investor Stockholders pursuant to Class B Exchanges and certain management selling stockholders in connection with the exercise of outstanding options.

Also in connection with rights of the stockholders party to the registration rights agreement, in June 2017, the company completed a secondary offering of 4.5 million shares of its Class A common stock at a price to the underwriters of \$25.87 per share (the "June 2017 Secondary Offering"). The shares sold in the June 2017 Secondary Offering consisted of 0.7 million existing shares of the company's Class A common stock owned and held by certain Investor Stockholders and 3.8 million newly-issued shares of the company's Class A common stock received by certain Investor Stockholders pursuant to Class B Exchanges under the Exchange Agreement.

As a result of the Class B Exchanges in connection with the September 2016 Secondary Offering, the March 2017 Secondary Offering, the May 2017 Secondary Offering and the June 2017 Secondary Offering, and Evolent Health LLC's cancellation of the Class B units, the company's economic interest in Evolent Health LLC increased from 71.0% prior to the September 2016 Secondary Offering to 96.1% immediately following the June 2017 Secondary Offering.

Expenses and indemnification

We will pay all expenses relating to any demand, piggyback or shelf registration, other than underwriting discounts and commissions and any transfer taxes, subject to specified conditions and limitations. Pursuant to the terms of the registration rights agreement, we paid approximately \$3.0 million in expenses related to the September 2016 Secondary Offering, the March 2017 Secondary Offering, the May 2017 Secondary Offering and the June 2017 Secondary Offering. The registration rights agreement includes customary indemnification provisions, including indemnification of the participating holders of shares of Class A common stock and their directors, officers and employees by us for any losses, claims, damages or liabilities in respect thereof and expenses to which such holders may become subject under the Securities Act, state law or otherwise.

Termination of registration rights

The registration rights granted under the registration rights agreement will terminate upon the date the holders of shares that are a party thereto no longer hold any such shares that are entitled to registration rights.

PLAN OF DISTRIBUTION

We and any selling stockholder may sell the shares of our Class A common stock under this prospectus in one or more of the following ways (or in any combination) from time to time:

- to or through one or more underwriters or dealers;
- in short or long transactions;
- directly to investors;
- through agents; or
- through a combination of these methods.

There can be no assurance that we will sell any or all of the shares of our Class A common stock registered pursuant to the registration statement of which this prospectus or any applicable prospectus supplement forms a part.

If underwriters or dealers are used in the sale, the shares of our Class A common stock will be acquired by the underwriters or dealers for their own account and may be resold from time to time in one or more transactions, including:

- in privately negotiated transactions;
- in one or more transactions at a fixed price or prices, which may be changed from time to time;
- in "at-the-market offerings," within the meaning of Rule 415(a)(4) of the Securities Act, to or through a market maker or into an existing trading market, on an exchange or otherwise;
- at market prices prevailing at the time of sale, or at prices related to those prevailing market prices; or
- at negotiated prices.

As applicable, we, any selling stockholders and our underwriters, dealers or agents, reserve the right to accept or reject all or part of any proposed purchase of the shares of our Class A common stock. We will set forth in a prospectus supplement the terms and offering of the shares by us or any selling stockholders, including:

- the names of any underwriters, dealers or agents;
- any agency fees or underwriting discounts or commissions and other items constituting agents' or underwriters' compensation;
- any discounts or concessions allowed or reallocated or paid to dealers;
- details regarding over-allotment options under which underwriters may purchase additional shares, if any;
- the purchase price of the shares being offered and the proceeds we or any selling stockholders will receive from the sale; and

- the public offering price.

We and any selling stockholders may enter into derivative transactions with third parties or sell securities not covered by this prospectus to third parties in privately negotiated transactions from time to time. If the applicable prospectus supplement indicates, in connection with those derivative transactions, such third parties (or affiliates of such third parties) may sell the shares of our Class A common stock covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, such third parties (or affiliates of such third parties) may use shares pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of shares, and may use shares received from us in settlement of those derivative transactions to close out any related open borrowings of shares. The third parties (or affiliates of such third parties) in such sale transactions will be underwriters and will be identified in an applicable prospectus supplement (or a post-effective amendment).

We may loan or pledge shares of our Class A common stock to a financial institution or other third party that in turn may sell the shares using this prospectus and an applicable prospectus supplement. Such financial institution or third party may transfer its economic short position to investors in our shares or in connection with a simultaneous offering of other shares offered by this prospectus.

Underwriters, Agents and Dealers

If underwriters are used in the sale of our shares of Class A common stock, the shares will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions described above. The shares may be offered to the public either through underwriting syndicates represented by managing underwriters or directly by underwriters. Generally, the underwriters' obligations to purchase the shares will be subject to conditions precedent and the underwriters will be obligated to purchase all of the shares if they purchase any of the shares. We and any selling stockholders may use underwriters with which or such selling stockholders we have a material relationship and, if so, we will name the underwriter and describe the nature of the relationship in the prospectus supplement.

We and any selling stockholders may sell the shares of our Class A common stock through agents from time to time. When we or any selling stockholders sell shares through agents, the prospectus supplement will name any agent involved in the offer or sale of shares and any commissions paid to them. Generally, any agent will be acting on a best efforts basis for the period of its appointment.

We and any selling stockholders may authorize underwriters, dealers or agents to solicit offers by certain purchasers to purchase our shares of Class A common stock at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. The contracts will be subject only to those conditions set forth in the prospectus supplement, and the prospectus supplement will set forth any commissions paid for solicitation of these contracts.

Underwriters, dealers and agents may contract for or otherwise be entitled to indemnification by us or any selling stockholders against certain civil liabilities, including liabilities under the Securities Act, or to contribution with respect to payments made by the underwriters, dealers or agents, under agreements between us or any selling stockholders and the underwriters, dealers and agents.

We and any selling stockholders may grant underwriters who participate in the distribution of our shares of Class A common stock an option to purchase additional shares to cover overallocments, if any, in connection with the distribution.

Underwriters, dealers or agents may receive compensation in the form of discounts, concessions or commissions in connection with the sale of our shares of Class A common stock. These underwriters, dealers or agents may be considered to be underwriters under the Securities Act. As a result, discounts, commissions or profits on resale received by the underwriters, dealers or agents may be treated as underwriting discounts and commissions. The prospectus supplement for any shares offered by us or any selling stockholders will identify any such underwriter, dealer or agent and describe any compensation received by them from us and any selling stockholders. Any public offering price and any discounts or concessions allowed or re-allowed or paid to dealers may be changed from time to time. Selling stockholders will be responsible for any discounts, concessions or commissions attributable to the sale by them of any shares of our Class A common stock.

Any underwriter may engage in over-allotment transactions, stabilizing transactions, short-covering transactions and penalty bids in accordance with Regulation M under the Exchange Act. Over-allotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short-covering transactions involve purchases of our shares of Class A common stock in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the shares originally sold by the dealer are purchased in a transaction to cover short positions. Those activities may cause the price of the shares to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time. We and any selling stockholders make no representation or prediction as to the direction or magnitude of any effect these transactions may have on the price of our shares. For a description of these activities, see the information under the heading "Underwriting" in the applicable prospectus supplement.

Underwriters, broker-dealers or agents who may become involved in the sale of our shares of Class A common stock may engage in transactions with and perform other services for us for which they receive compensation.

Stabilization Activities

In connection with an offering through underwriters, an underwriter may, to the extent permitted by applicable rules and regulations, purchase and sell shares of our Class A common stock in the open market. These transactions, to the extent permitted by applicable rules and regulations, may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. "Covered" short sales are sales made in an amount not greater than the underwriters' option to purchase additional shares from us in the offering, if any. If the underwriters have an over-allotment option to purchase additional shares from us, the underwriters may consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option. "Naked" short sales, which may be prohibited or restricted by applicable rules and regulations, are any sales in excess of such option or where the underwriters do not have an over-allotment option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

Accordingly, to cover these short sales positions or to otherwise stabilize or maintain the price of the shares of our Class A common stock, the underwriters may bid for or purchase shares in the open market and may impose penalty bids. If penalty bids are imposed, selling concessions allowed to syndicate members or other broker-dealers participating in the offering are reclaimed if shares previously distributed in the offering are repurchased, whether in connection with stabilization transactions or otherwise. The effect of these transactions may be to stabilize or maintain the market price of the shares at a level above that which might otherwise prevail in the open market. The imposition of a penalty bid may also affect the price of the shares to the extent that it discourages resale of the shares. The magnitude or effect of any stabilization or other transactions is uncertain.

Direct Sales

We and any selling stockholders may also sell shares of our Class A common stock directly to one or more purchasers without using underwriters or agents. In this case, no agents, underwriters or dealers would be involved. We and any selling stockholders may also sell shares directly to institutional investors or others who may be deemed to be underwriters within the meaning of the Securities Act with respect to any sale of those shares.

At-the-Market Offerings

To the extent that we make sales through one or more underwriters or agents in at-the-market offerings, we will do so pursuant to the terms of a sales agency financing agreement or other at-the-market offering arrangement between us and the underwriters or agents. If we engage in at-the-market sales pursuant to any such agreement, we will issue and sell our shares of Class A common stock through one or more underwriters or agents, which may act on an agency basis or on a principal basis. During the term of any such agreement, we may sell shares on a daily basis in exchange transactions or otherwise as we agree with the underwriters or agents. The agreement will provide that any shares sold will be sold at prices related to the then prevailing market prices for our shares. Therefore, exact figures regarding proceeds that will be raised or commissions to be paid cannot be determined at this time. Pursuant to the terms of the agreement, we may agree to sell, and the relevant underwriters or agents may agree to solicit offers to purchase, blocks of our Class A common stock. The terms of each such agreement will be set forth in more detail in a prospectus supplement to this prospectus.

Trading Market and Listing of Shares

Any shares of our Class A common stock sold pursuant to a prospectus supplement will be listed on the NYSE. It is possible that one or more underwriters may make a market in the shares, but the underwriters will not be obligated to do so and may discontinue any market making at any time without notice. We cannot give any assurance as to the liquidity of the trading market for the shares.

LEGAL MATTERS

Unless otherwise indicated in the prospectus supplement, certain legal matters regarding the validity of the Class A common stock offered hereby will be passed upon for us by Cravath, Swaine & Moore LLP.
